1. Terms and Conditions

***Financial Assistance Award 1512
Between the Denali Commission and Alaska Village Electric Coop Inc
For Shaktoolik Community Bulk Fuel Facility Design
Amendment 1***

All changes to the award conditions are noted below.

Performance Period:

The Period of Performance is extended until 31 December 2018.

Scope:

The Scope of work is amended in order to clarify which bulk fuel facilities are included in this design project.

The need for this project has been identified in both the 2016 Shaktoolik Strategic Management Plan and 2015 Multi-Jurisdictional Hazard Mitigation Plan. Tank Farm 1 in the Strategic Management Plan, includes a series of facilities owned by the City of Shaktoolik, the Bering Straits School District (BSSD), and the Shaktoolik Native Corporation (SNC). Of the 24 tanks in the facility, SNC owns 13, BSSD owns 8 and the City owns 3. The fuel farm has total capacity of 242,400 gallons of storage. SNC retails diesel and gasoline to local customers from its tanks. Tank Farm 2 is owned and operated by AVEC, the local electrical utility provider. Tank Farm 3 is owned and operated by BSSD and is located adjacent to the school building. Tank Farm 4 has one tank and is operated by SNC.

This project will provide two bulk fuel facility designs for the replacement of existing Tank Farm 1 (co-located bulk fuel facility) and Tank Farm 2. Design work shall be completed in accordance with the Final Conceptual Design Report (CDR) developed by CRW Engineering dated October 2017.

Key Milestones:

CDR Revised Final	28 February 2018
65% Design Documents	1 March 2018
Business Plan	30 June 2018
95% Design and CATEX Checklist	31 July 2018
Final Design Submittal and Plats	15 December 2018

There are no other changes to the original Financial Assistance Award.
